

**REMARKS/ARGUMENTS**

Communication Under 37 C.F.R. 1.821-1.825

Please replace the original Sequence Listing and disk mailed on July 13, 2001, with the enclosed Substitute Sequence Listing in paper and computer readable format. In order to comply with Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures, 37 C.F.R. §§ 1.821-1.825, Applicants submitted the first paper copy and computer readable format (CRF) of the Sequence Listing on July 13, 2001. In the first filed Sequence Listing some sequences were improperly presented. The paper and CRF of the Substitute Sequence Listing, submitted herewith, properly present all the sequences.

This paper is accompanied by a CRF (floppy disk) containing SEQ ID NOS: 1-104, and a paper copy of the sequence information which has been printed from the CRF. The information contained in on the CRF was prepared through the use of the software program "FastSEQ for Windows Version 4.0" and is identical to that of the paper copy. This amendment contains no new matter.

Amendment

The paragraph beginning on page 9, line 9 has been amended to corrected to replace the typographical error "OFR" with the correct acronym "ORF".

The paragraph beginning on page 30, line 5, containing the descriptor of SEQ ID NO: 56 has been amended to correct an obvious error. The internal peptide is correctly shown in FIG. 5 (block described as "internal peptide sequence") with a "G" (glycine) in position 2 thereof. The transcription error was inadvertent and without deceptive intent.

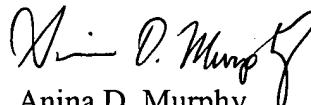

These amendments to the specification add no new matter. Accordingly, entry of this amendment is respectfully requested.

Appl. No. 09/724,571  
Amdt. dated November 7, 2003

PATENT

If the Examiner believes a telephone conference would expedite prosecution of this application, please telephone the undersigned at 650-326-2400.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Anina D. Murphy". The signature is stylized with a large, looped "M" and a trailing flourish.
